Product description

Cleaner concentrate based on tensides.

Special properties

- Very good removal of oils and greases
- Does not attack paint or plastic surfaces

Application

LUSIN® CLEAN W 81 is a universal cleaner for removal of oils, greases, waxes or resins.

It can be used to degrease sheet metals and machine parts, apparatus, floor and plastic surfaces and windows.

It is suitable for use with high pressure cleaning apparatus.

It is also used for interior and exterior cleaning of vehicles and in window wiper sprays (recommended dilution 1:500)

Universal cleaner for the kitchen, bathroom or cellar.

Instructions for use

Clean parts by wiping, immersing or spraying. LUSIN® CLEAN W 81 can be used at dilution rates from 1:1 to 1:500 according to the degree of contamination.

LUSIN® CLEAN W 81 should be applied to the contaminated surface, left to react for a short time and rinsed off with water.

The cleaning effect is increased when LUSIN® CLEAN W 81 is applied hot.

Shelf life:

6 months
